No. 1971

Station Madras, *Dated the* 6th December 20. 1917.

From (Name) The Hon'ble Major General G.G.Giffard, C.S.I., K.H.S., I.M.S.,
(Designation) Surgeon-General with the Government of Madras.

To The Secretary to the Government of Madras,
LOCAL AND MUNICIPAL (Medical) Department.
(through the Accountant-General, Madras)

Sir,

In forwarding herewith copy of letter No.C 801/17 dated 3-4-17, from the District Medical & Sanitary Officer South Canara requesting that one House Physician and one House Surgeon be posted to the Government Wenlock Hospital, Mangalore, I have the honour to state that the District Medical & Sanitary Officer was informed in 1917 that the question of appointing House Surgeons should lie over till the war was over and the financial situation was better.

The District Medical & Sanitary Officer now requests that one House Physician and one House Surgeon be -

posted to the Head Quarter Hospital, Mangalore. It is - therefore recommended that the Government will be pleased to sanction the appointment of a House Surgeon and a House Physician to the above Hospital. The appointments will be filled up when medical graduates become available.

2. The extra expenditure that will be incurred during the current year in connection with this proposal can be met by reappropriation of funds. Necessary provision may also be made in the Civil budget estimate for 1921-22 if the appointments are sanctioned.

I have the honour to be,

Sir,

Your most obedient servant,

Major General, I.M.S.,

Surgeon-General with the Government of Madras.

Copy of letter C No. 801/17 dated 3rd April, 1917 from the District Medical & Sanitary Officer, South Canara to the Personal Assistant to the Surgeon-General with the Government of Madras.

I have the honour to request you to be good enough to post two young recruits of the Assistant Surgeon's grade to the Wenlock Hospital, Mangalore one as a House Physician and the other as a House - Surgeon.

From a clinical point of view, Wenlock Hospital affords a good field for practical training both on the Surgical and the - Medical side. The statistics herein enclosed will bear out the above statement. The Hon'ble Surgeon-General has himself seen during his - annual inspections that good professional work is being carried on in the two hospitals in this town. The Hon'ble Mr.Cardew during his visit to the hospital has made the observation that the hospital is resorted to by patients from different parts of the district.

There is no doubt therefore that the posting of two young graduates will be of distinct advantage to themselves and will at the same time help the staff which is greatly undermanned in introducing modern method of clinical investigations in the diagnosis and treatment of cases, which will eventually improve and raise the quality of work turned out here. In view of the construction of a new combined hospital for men and women, the facilities for practical training will indeed be great. I therefore request you to be good enough to recommend the - appointment of one House Physician and one House Surgeon to the Wenlock Hospital, Mangalore.

CNo. 4482, from the S.G. No. 19 Es-1071 dy 6.12.20

House Physician and House Surgeon – Appointments.
Headquarter hospital, Mangalore.

The S.G. requests sanction to the appointment of a house physician and a house surgeon in the headquarter hospital, Mangalore. He proposes to fill up these appointments, if sanctioned, when medical graduates become available. Hence there does not seem to be any urgent necessity. The reasons addduced for the appointments are

(1) that the hospital affords a good field for practical training both on the surgical and the medical side and especially in view of the construction of a new Combined hospital for men and women, the facilities will be greater and

f. 2 c.f

(2) the posting of two young graduates will help the hospital staff which is greatly understaffed in introducing modern method of clinical investigation in the diagnosis and treatment of cases.

-ibid-

~~Vide above para perhaps to give~~

relief to the regular staff of the Hospital.

2. The main object of the scheme for the employment of house physicians and house surgeons is to secure for young medical graduates practical training prior to their entering the profession. Attention is also invited to the notes of the late S. G. (W. B. Bamerman) dated 23.3.16 — p. 9 of G.O. 651 Public 4.4.16.

Please see para. 3 of S.G's letter — p. 2 of fo. 104 Pub 22.1.14 (B)

(1X)

3. The statement below shows the daily average attendance of the in and out-patients in the Hospital for 1917-19

	Average daily attendance	
Year	In-patients.	Out-patients.
1917.	49.05	223.97
1918	55.93	243.64
1919	56.88	236.13

In these circumstances the S. G's proposal may be approved. The exact cost involved is not known. Perhaps the S. G. will intimate to Govt. before the appointments are actually filled up. The remarks of the financial dept. may, if S.R.O., be invited a.o.

JSR 28.12.20

In several other important hospitals

(eg. Coimbatore, Calicut, Vizagapatam, Cocanada Kumbakonam, Palamcottah & Cochin), there is only one appointment of house surgeon or physician. It does not therefore seem necessary to have two appointments in the Mangalore hospital.

vi+ p/vii of Orly Civil Medical.

(XII)

In GO 195 Public 6-2-1916, the Govt deferred the creation of similar appointments at Palghat & Vellore owing to want of funds; these towns have therefore a prior claim for these appointments. For orders whether in the circumstances, the S.G.'s proposal will be accepted. Perhaps one appointment may be sanctioned for Mangalore. If so the extra cost will be Rs 65× a month or Rs. 780 a year

FEB 1921

It is difficult to come to a decision on isolated cases and I should be glad if the Surgeon-General would deal with this case on general principles, in view of the possible requirements of other headquarter hospitals.

OFFICE OF SURGEON-GENERAL
23 JAN 1921
GOVT OF MADRAS

I believe the Surgeon-General has already under consideration proposals for standardising the staff and equipment of headquarter hospitals as well as other medical institutions, and I would suggest that this question be dealt with on general lines. What is wanted is some formula sufficiently elastic to gauge the varying needs of all institutions.

S.S.G. No. 143

S.G.'s No. No. 19E.143.
10th Feb 1921

Re proposals for standardisation of hospitals will take some time to formulate. In the meantime one thing seems clear and that is that the Hospital attached to a Medical School should be of a higher standard than a hospital attached to a Training School for Nurses only and may be smaller. Whether the Hospital attached to a Medical School should be of the same size as the Hospital attached to a Training School for Nurses only will depend on the number of beds required for the instruction of students. In England they are not required but in this country they are too few. Hitherto

Fin! u.o.

Finance Dept

It is too late to include provision in the CBE for 1921-22 on account of the appointment of house surgeon proposed for the headquarter hospital, Mangalore. If any extra expenditure is to be incurred during next year, it will have to be met by reappropriation

2. The appointment is to be filled up "when medical graduates become available" and ~~the~~ Public Health Dept. do not seem to think that the creation of the post is of pressing urgency. From the notes on pages 3 ante, it will appear that proposals for the creation of similar posts in other head quarter hospitals are likely to come in sooner or later.

3 Orders are solicited whether Public

Note for members of the PHB.

Appointment of a house physician & house surgeon to the Mangalore hospital.

The S.G. recommends the appointment of a house physician & house surgeon to the Mangalore hospital on the following grounds:

1) that the hospl affords a good field for practical training both on the medical & the surgical side

2) that the appts will help the staff which is greatly under-manned in introducing modern methods of diagnosis & treatment.

2 The scheme of appointing house physicians & surgeons is mainly intended for the benefit of young graduates. Only one each house appointment has been sanctioned for several other important headquarter hospitals, and most of these are vacant for want of candidates. It has been suggested that one appt
